

Vital Statistics 2004 The UK Gay Men's Sex Survey

England Strategic Health Authorities Data Report (February 2008)

This is a report of data from the UK Gay Men's Sex Survey 2004, conducted by Sigma Research in collaboration with health promoters throughout the UK. This report supplements the annual report *Risk and reflexion* (down-loadable from <http://www.sigmaresearch.org.uk/files/report2005c.pdf>). Survey methods and interpretation of the variables are outlined in that report. This data is intended to provide HIV health promotion planners with information about their local gay population. This report contains data from men who live in England and for whom Strategic Health Authority (SHA) data is known. Respondents are grouped according to the SHA in which they live.

The data

The survey used three data collection methods over the summer of 2004:

- (1) A self-sealing, Freepost addressed booklet distributed by 113 health promotion agencies throughout the UK: (96 based in England);
- (2) In English and Spanish on two specific web-sites <<http://www.sigmasurvey.org.uk>> and <http://www.sigmaspanish.org.uk>>, promoted via links on 37 gay and HIV related web-sites (25 targeted at men living in England). Two sites, gay.com and gaydar.co.uk, conducted substantial paid for promotion of the survey.
- (3) As an insert in the GMFA magazine 'FS' which could be returned by Freepost.

This report contains data from all the men recruited through **all methods**.

The respondents are grouped according to the SHA they live in.

To be included in the sample respondents must:

- be male;
- be aged 14 or over;
- be living in England;
- have had sex with a man in the last year and / or have a gay, bisexual or other "queer" identity;
- have completed at least one demographic question and one other question.

Differences between the number of surveys returned and the number of men who appear in the sample are due to these exclusions.

The tables

Groups of men living in the same SHA appear as a line in the tables. The bottom line of each table gives the result for the entire England sample. The first table shows the number of men recruited to the survey living in each SHA and the size of the Sub-samples in the rest of the tables. The tables show the proportions (%) of each sub-sample for that variable (less missing data). Rows (lines across) add up to 100%. The only exception to this layout is table 3, Age averages.

Questionnaires

The contents page identifies the Booklet question number (Q) each table is derived from.

The questionnaire used in the survey is available to download at:

<http://www.sigmaresearch.org.uk/files/VS2004booklet.pdf>.

Funding

The survey was funded by Terrence Higgins Trust as part of CHAPS, a national HIV prevention initiative funded by the English Department of Health and the National Assembly for Wales. Web recruitment occurred in England, Wales, Scotland and Northern Ireland and the Republic of Ireland. Booklet recruitment occurred in England Wales and Scotland.

Table Contents

SAMPLE DESCRIPTION

1. Web and booklet sample sizes by Strategic Health Authority of residence.
2. Age groups; Q8 grouped into ten year age bands.
3. Age averages; from Q8; the median age (line them up by size and pick the one in the middle), the minimum (youngest) and maximum (oldest) ages, the mean age (add them up and divide by how many there are), and the standard deviation (a measure of how spread out along the range they are).
4. Ethnicity in six groups; from Q4.
5. Years of full-time education after the age of 16 years of age; Q7.
6. Current religious practice; Q9 + Q11 + Q13.
7. Sexual identity; Q3.
8. Illness, health problem or disability; Q16.

HIV TESTING

9. HIV testing history; Q17 + Q18.

SEXUAL BEHAVIOUR

10. Gender of sexual partner in the last year; Q22.
11. Number of male sexual partners in the last year; Q23 (Those who had sex with men).
12. HIV concordancy of regular male relationship; Q14 + Q15.
13. Sex with a risk of HIV transmission since last HIV test; Q20. (Those who had tested for HIV).

HEALTH NEEDS

14. *The sex I have is always as safe as I want it to be*; Q30a.
15. *I find it easy to say 'no' to sex I don't want*; q30b.
16. *I sometimes feel lonely*; Q30c.
17. *I sometimes worry about how much I drink*; Q30d.
18. *I sometimes worry about my recreational drug use*; Q30e.
19. *I'm happy with what I know about HIV*; Q30f.
20. Desire to know more about sexual health and HIV; Q33.

INTERVENTION COVERAGE

21. Recency of STI check-up; Q31.
22. Location of last STI check-up; Q32.
23. Location of last HIV test; q19.
