

Vital Statistics 2005 The UK Gay Men's Sex Survey

Area Sub-samples Data Report (February 2008)
South East Coast Strategic Health Authority

This report uses data from the UK Gay Men's Sex Survey 2005, conducted by Sigma Research in collaboration with health promoters throughout the UK. This report supplements the annual report, *Consuming passions: findings from the United Kingdom Gay Men's Sex Survey 2005* (downloadable from <http://www.sigmaresearch.org.uk/downloads/report2007c.pdf>). Survey methods and interpretation of the variables are outlined in that report. This data is intended to provide HIV health promotion planners with information about their local gay population. There is one data report for each of the Strategic Health Authority Areas in England. In each report men are usually grouped according to their local PCT of residence. The report indicates where this is not the case.

The data

The survey used two data collection methods over the summer of 2005:

- (1) A self-sealing, Freepost addressed booklet distributed by 83 health promotion agencies;
- (2) On a specific web-site <<http://www.sigmasurvey.org.uk>>, promoted via links on 55 gay and HIV related web-sites. Two sites, gay.com and gaydar.co.uk, conducted substantial paid for promotion of the survey.

This report contains data from all the men recruited through **both methods**.

The respondents are grouped according to the agency which recruited them.

To be included in the sample respondents must:

- be male;
- be aged 14 or over;
- be living in the UK;
- have had sex with a man in the last year or have an expectation of having sex with a man in the future;
- have completed at least one demographic question and one other question.

Differences between the number of surveys returned and the number of men who appear in the sample are due to these exclusions.

The tables

Groups of men living in the same PCT area appear as a line in the tables. The bottom line of each table gives the result for the entire area being considered. The first table shows the number of men recruited to the survey living in PCT areas and the size of the Sub-samples in the rest of the tables. PCT areas with fewer than 20 men and amalgamated PCT areas (where respondents cannot be allocated to an individual PCT area) are reported on further as "all other men". The tables show the proportions (%) of each sub-sample for that variable (less missing data). Rows (lines across add up to 100%. The only exception to this layout is table 3, Age averages.

Questionnaires

The contents page identifies the Booklet question number (Q) each table is derived from.

The questionnaire used in the survey is available to download at:

<http://www.sigmaresearch.org.uk/files/VS2005booklet.pdf>.

Funding

The survey was funded by Terrence Higgins Trust as part of CHAPS, a national HIV prevention initiative funded by the English Department of Health and the National Assembly for Wales. Web recruitment occurred in England, Wales, Scotland and Northern Ireland. Booklet recruitment occurred in England and Wales.

RESEARCH

Table Contents

SAMPLE DESCRIPTION

- 1a. Local authority of residence.
- 1b. Web and booklet sample sizes by Primary Care Trust area of residence.
2. Age groups; Q8 grouped into ten year age bands.
3. Age averages; from Q8; the median age (line them up by size and pick the one in the middle), the minimum (youngest) and maximum (oldest) ages, the mean age (add them up and divide by how many there are), and the standard deviation (a measure of how spread out along the range they are).
4. Years of formal education after the age of 16 years of age; Q5.
5. Annual Income; Q6.
6. Current religious practice; Q7.
7. Ethnicity in six groups; from Q9.

HIV TESTING

8. HIV testing history; Q14 + Q15.

SEXUAL BEHAVIOUR

9. Gender of sexual partner in the last year; Q3.
10. HIV concordancy of regular male relationship - whether men have a regular partner and if so, whether they have the same (sero-concordant) or different (sero-discordant) HIV statuses, or don't know; Q11 + Q12.
11. Number of male sexual partners in the last year; Q19 (those who had sex with men)
12. Insertive (active) anal intercourse (IAI) and frequency of condom use in the last year; Q22 + Q23.
13. Condom failure in the last year; Q22 + Q23 + Q24 (all men).
14. Receptive (passive) anal intercourse (RAI) and frequency of condom use in the last year; Q28 + Q29.
15. Unprotected anal intercourse (UAI) in the last year; Q26 + Q30 (direct questions).

OTHER HEALTH BEHAVIOUR

16. Cigarette smoking; Q16.
17. Use of recreational drugs in the last year (Ecstasy, LSD, amphetamine, crystal methamphetamine; cocaine, crack cocaine, ketamine, GHB or heroin); Q17.
18. Use of crystal methamphetamine in the last year; Q17.

OTHER HEALTH NEEDS

19. *I would like to stop smoking tobacco* (of tobacco smokers); Q18 + Q16.
20. *I sometimes worry about how much I drink* (of drinkers); Q18 + Q17.
21. *I sometimes worry about my recreational drug use* (of those using cannabis, ecstasy, LSD, speed, crystal methamphetamine, cocaine, crack, ketamine, GHB, heroin, poppers, viagra, tranquilisers and magic mushrooms) ; Q18 + Q17.

INTERVENTIONS - CLINIC USE

22. Recency of Clinic use; Q37.
23. Offered an HIV test on last clinic visit (those not already diagnosed with HIV); Q37 + Q39.

INTERVENTIONS - PEP

24. Heard of PEP; Q32.
25. Ever tried to get PEP; Q33 (whole sample).
26. Ever taken PEP; Q34 (whole sample).
27. Know anyone who has received PEP; Q35 (whole sample).
28. If you thought you had been exposed to HIV would you consider trying to get PEP; Q36 + Q15 (of those not tested HIV positive).

HATE CRIME

29. Homophobic physical assault in the last year; Q42.
30. Homophobic physical assault reported to the police; Q42 + Q43 (of those physically assaulted).
31. Homophobic verbal abuse in the last year; Q46.
32. Homophobic verbal abuse reported to the police; Q46 + Q47 (of those verbally abused).

INTERNET PROFILE

33. Active (currently in use) internet profile on www.gay.com or www.gaydar.co.uk; Q51 + Q52.
